

NATURE PASSPORT BOOKLET

Activate your community

Let Nature Play WA create a Nature Passport for your local government area that will help activate your green spaces and make nature play part of every day for your residents.

Nature Passport activity booklets highlight nature playgrounds, green open spaces, wetlands and other nature-rich locations in your area and links them to fun nature play activities for families.

The booklets also contain an activity map, a customised seasonal nature play guide, “15 things to do” within your City Council, plus stickers and a nature safari section.

Leverage Nature Play WA's expertise and reputation to create a meaningful promotional tool and resource for visitors, local families and schools.

- Encourage family time outdoors, promoting social connection, physical and mental health.
- Connect kids and families with your local government area's natural assets to inspire lifelong stewardship behaviours and attitudes.
- Foster children's natural curiosity, creativity and critical thinking – skills shown to boost academic performance and learning.

Case Study: Shire of York Nature Passport

Nature Play WA created the Shire of York Nature Passport, which was launched at a community nature play event in June, 2018. Response to the booklet was extremely positive from both locals and visitors:

“I think it is an excellent thing to have an adventure around our lovely countryside and learning about our country town.” – Attendee (Shire of York local)

“We did a lot of the activities while we were there for the weekend, (it) made my child look closer at her surroundings and find activities that were not ‘toys’” – Attendee (visitor to Shire of York)

Your booklet is aligned with the free Nature Passport App, which contains over 100 activities for families to complete.

The app is designed to guide families through outdoor play, learning, and exploration together – creating fun memories while inspiring lifelong stewardship behaviours. **For more on the app visit: natureplaywa.org.au/nature-passport-outdoor-app**
