

Get your students to create a passport today!

Encouraging unstructured outdoor play isn't rocket science - just flick off the computer and toss the kids outside to climb a tree, build a cubby, invent a game or play in the bush. Convince your fellow teachers to do the same and your students will get heaps of benefits!

What is the Nature Play Activity Passport?

To get kids motivated to become nature players, we have a passport linked to a series of “missions” designed to make kids run, jump, climb, splash, invent, imagine, play and be a free-range kid. The idea is to help you get your students outside with some fun and cheap activities.

Getting started – Instructions for Teachers

1. Click on to www.natureplaywa.org.au/programs/passport-to-an-amazing-childhood
2. Download and print off the 'Passport' PDF and instructions for your students to create their own passport so they can record their mission experiences in it by writing stories, drawing pictures, stamping or stapling a leaf from an adventure walk!
3. Click onto this [link](#) to print off the passport artwork.
4. Check out the **mission badges** to cut out and paste into the passport.
5. **Let their creativity go wild!**
6. **Ask your students to record** their name, age and a made-up passport number for their passport.
7. **Download mission sets for your students to complete!**

What is the Nature Passport App?

If you want to have an **online experience**, check out our **NEW** and exciting **Nature Passport app!** Click here: www.naturepassport.org OR check it out at the App store.

It has exciting and fun activities to do just like the passport program. This amazing app is a great tool for **families and educators to connect children with nature** in their daily lives in neighborhoods, communities and in wild places. It also provides links to tips and lesson plans for educators, with new content released every two weeks.

- # 15 things TO DO BEFORE you're 12
1. Climb a tree
 2. Build a cubby
 3. Camp out under the stars (even in your backyard)
 4. Invent a game that lasts 3 days
