

## Stories in the Sky

*Adventure Level: Medium*

Find a good place to sit or lay down and watch the clouds in the sky. Take notice of their colours, textures and shapes. Or have someone describe these to you.

### Create a Story in the Sky

Have you ever created a story? Using the clouds as inspiration, and a friend to help you, you'll create a Story in the Sky.

### Exploring Shapes

Look above and spot any clouds in the sky. Can you see any interesting shapes? What do they remind you of? Talk about the different shapes of clouds and what they could look like.

### Creating a Character

Take inspiration from the clouds and come up with some characters to star in your story.

What is their name?.....

Do they have a costume?.....

Do they have a super power?.....

### Sharing Your Story

With a friend, start sharing your story. If you're not sure how to start, we suggest saying "Once upon a time...." Tell part of the story, and let your friend take a turn at telling the next part. Take turns in telling a piece of the story. If you're stuck, start your part with "yes, and then..."

### Draw Your Character

Can you, or your friend, draw a picture of your character here? You can also draw on the back of this page.
